DETAILED ACTION

1. The information disclosure statement filed 9-16-2002 fails to comply with 37 CFR 1.98(a)(3) because it does not include a concise explanation of the relevance, as it is presently understood by the individual designated in 37 CFR 1.56(c) most knowledgeable about the content of the information, of each patent listed that is not in the English language. It has been placed in the application file, but the information referred to therein has not been considered. Specifically, the Japanese, the German and the French patents have no English abstract, translation or statement of relevancy. These references have been lined through on the 1449 and have not been considered. The other English language documents have been considered. The IDS has been considered in part.

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-20 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Capodieci USP 5,928,695. The apparatus and method for ultrasonically energized slitting of a slab confectionery material has been fully taught by the Capodieci 5,928,695 Patent.

4. A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re*

Art Unit: 1761

Ockert, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

5. Claims 1-20 rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 1-20 of prior U.S. Patent No. 5,928,695. This is a double patenting rejection.

6. Applicant is advised that the claims as drafted must be cancelled. Applicant must file new claims which are not co-extensive with the 5,928,695 claims. Applicant is forewarned that the any new claims submitted would most likely be subject to an obviousness type double patenting rejection with the Capodieci 6,368,647 patent. Applicant is also advised that the next office action can be and will be made FINAL as necessitated by amendment.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to N. Bhat whose telephone number is 703-308-3879. The examiner can normally be reached on Monday-Friday, 9:30AM-6:00PM.
